Personal Summary

I am hard working, safety aware, honest and punctual.

Reliable worker with strong electrical as well as mechanical aptitude and willingness to learn

I am looking for a long term job where I can grow and develop a career.

Education

2014-2018 Kzinei Yam Akko

High School Diploma (Marine Electricity + Electronics and Programming)

Israel maritime training authority Akko

MotorMan + STCW + Security

Military

Israeli Navy (2019-2021)

I began my service as a mechanic who specializes in the electrical part of the vessel's systems as a part of a Classified Navy Unit.

Due to the classified nature of my service I cannot say too much information, that being said:

The Scope of my responsibility was to ensure and maintain the proper work of the mechanical as well as the electrical part of the vessel.

- Have done mechanical works on multiple kinds of pumps, compressors, diesel engines, auxiliary and main engines, evaporators. Boilers, A/C systems, sewage and ballast system.
- Troubleshoot and repaired shipboard electrical systems, equipment with specified technical information, including 600 VAC or less.
- Interpreted and worked from technical drawings, diagrams, instruction manuals, and manufacture's handbooks.
- Supervised a team of mechanics and managing work order.
- Shifts in the E.C.R on sail.

Job experience

Chevron (2021- 2023)

Worked on Leviathan platform as an entry level operator,

Worked as licensed Signalmen on the throughout the platform

Took part in managing and running a newly installed WWT plant on the platform
